GOOD NEWS FOR EVERY ONE!

NOWLEDGE IS POWER. IF YOU DEsire to preserve your health, a knowledge of the laws for its preservation is essential. If you are ill, and have sought in vain for renewed health, want is the reason? Simply this, a want information on the subject. The civilisation of the present day renders some aid to nature in the preservation and restoration of health indispensions. sably necessary; and the only question is, whence is the required help to be obtained? Undoubted-ly, by using

Kaye's Worsdell's Vegetable Restorative Pills.

For the last thirty years the truth has been gaining ground that to purify the blood is the simplest and most natural way of restoring and maintaining health; and the great and distinguishing feature of these celebrated pills is, that they specify radicate all discase from the body, by purifying the blood; thus good health is at once secured, and all may ensure a sound constitution and complete freedom from pain and disease. The pamphlet enclosed with each box of the ills gives most interesting particulars of many undreds of cases of cure, together with instructions for the use of the medicine. TRY ONL BOX OF

CITY LAND-MARKS

It is really surprising, in a city like this, where property is becoming so valuable, that so much indifference should be exhibited towards having the boundaries of streets and lots properly defined and fixed. There are places in which, from one cause and another, a greater degree of confusion prevails in the lines run by different surveyors. This is only to be expected; but the matter is becoming too serious to be any longer neglected. If we do not want a plentiful crop of litigation with respect to disputed bounda ries, or to have people put to a vast deal of trouble and expense by reason of having built outside their lines, we should have some steps taken to do away with present irregularities. We have a City Surveyor. The Corporation have power to establish and maintain land-marks in the city. What, then, is to prevent his commencing to fix all the ecessary points for enabling the surveys of lots to be carried on with greater facility and greater exactness than is the case at present. The fixing of the grade of the streets in the city is, no doubt, very necessary to enable the Corporation to go on with improvements; but the laying down of permanent land-marks, by which even strangers may go, in running lines in the city, is equally necessary, and should not be delayed.

No doubt the surveyors who have been for some time engaged in doing business in town, have established certain marks in diferent streets by which they are guided somewhat, and saved the necessity of always having recourse to the central starting point -but the fact of their marks being private, and temporary instead of permanent, and ac knowledged by common consent, is sufficient to show how necessary it is to do away with that system. We want the lines of our streets and blocks correctly defined, and laid down by monuments that all may go by Few towns present greater facilities for effecting this object than Victoria. The solid bed of rock, which in many places in the city comes to the surface, affords a landmark of he most permanent description. Wherever it exists in prominent places, such as at the intersection of streets—the point indicating the central line of the street should be drilled or otherwise properly marked. On corners where no rock crops out, the Corporation should cause stone blocks to be sunk a few feet from the surface. Were the central lines of the street once laid down, and substantially fixed in the manner just indicated, there would be little danger of surveyors differing much in fixing the frontage and side lines o lots. The discrepancies between the actual quantity of land in the city, and that given on the public map, would then stand a chance of being reconciled or rectified: Peo ple would then feel a greater degree of confidence in purchasing land or making permanent improvements, such as the erection of good brick or stone buildings. This cannot be the case so long as things are allowed to stand as they are at present, so that the Knives and Forks; marks fixed, the better it will be for all con-

ATTORNEY-GENERAL vs. HUDSON Plated Tea Sets. BAY COMPANY. Our readers may well be incredulous at the caption of this article. Such a thing as the Attorney General versus the Hudson Bay Water Bottles, Company is not possible-cannot be a reality -is only a seeming opposition-sand thrown in the eyes of the multitude to blind them to the real designs of both parties. It is a sham attack on the Company, to get a few bits of land, such as the encroachment on the Park, a lot next to the Cemetery, and, perhaps, a strip alongside the Government Buildings; whilst the Company are allowed ite. This, in the opinion of our Crown lawyer, is the perfection of political wisdom, and a noble defence of the right of the Colony to ts own property. He busies himself with a suit in chancery to get the Colony property, worth perhaps \$5,000 or \$19,000, whilst the Hudson Bay Company is allowed to take Amateur Dramatic Performance, \$490,000 or \$495,000 out of the town-site for nothing! No attempt is made to overturn the nefarious settlement made in London, by which the Crown guaranteed to the Company what belongs of right to the Colony. The Act of Arbitration is not even questioned on behalf of the Crown! But the suit is brought on behalf of the lot-holders-the purchasers from the Hudson Bay Company rior to the Act of Arbitration—to make the Company give back the encroachments on the Park and on one or two other reserves, for which purpose no lot-holder has made any official complaint! This is entirely a volunteer effort on the part of Mr. Cary and the Government to persuade the public that the latter is at variance with the schemes of the Company, and disposed to look after the public interest. If such an idea gained currency how delighted the schemers would be! But it is simply a question in which a crust is asked for the Colony, whilst the loaf is par-

celed out in secret to the spoilers. We all recollect how suddenly patriotic Mr Attorney General became, when he was ound out as being a purchaser of the Public Springs from the Company. All his labor ended in nothing, because it was not honestly directed to serve the public. If the Attorney-General or the Government had been disposed to vindicate the right of the colony to the proceeds of the town site, at that period they would have employed able and honest counsel in London to watch the negotiations of the Company, and prevented the Crown from withdrawing the suit against the Company from the Privy Council. But no effort of that character was made. A few days spent in windy orations before Justice Cameon, till public attention was directed auother way, and then the matter was dropped. Now that the elections are near, we hear of another bogus attempt. If it suits the Government perhaps we shall have a decree favorable to the Colony, till it is overturned by the Act of Arbitration, which declares that all land sold by the Company before the first of January, 1862, shall remain in the undisturbed occupation of the purchasers. If the Attorney-General wishes to act honestly by the Colony. why does he not on behalf of the Crown investigate the bogas sales of townsite lands made since January 1st, 1862. Take a notorious instance of the land sales since that period. Mr, Ring, exmember for Nanaimo and at present a candidate for re-election, during the administration of the Company's affairs here by Mr. Dallas, was offered a piece of land on easy terms. The offer was declined. Daring 1862, and we believe after the provisions of the Act of Arbitration had reached the Colony, Mr. Ring by some means HARDY GILLARD & CO.,

TABLE AND STATE OF THE ACT OF THE

NEW PUBLICATION .-- Our thanks are due to Mesers Hibben & Carswell for a copy of a beautiful edition, in the blue and gold style, of Owen Meredith's " Poems," publishd by Ticknor & Fields. It is not often that ed by Ticknor & Fields. It is not often that literary genius is hereditary. Nature is chary in her gifts. She seldom dispenses them to more than one generation of the same family. The son of the talented author of "My Novel," or Variety of English Life, seems however to be one of the favored exceptions. Robert Balwer Lyton has shown in the poems written under the above non de plume that he was not presumptuous in believing that he need not depend upon his father's reputation to ensure his being read and admired CHAMBER OF COMMERCE -This body held

a meeting yesterday at the Exchange News Room at which we understand the result of the negotiations between the Committee o the Chamber and the Government in reference to a Gold Escort, was submitted to the meeting. I: appears that the Government declined taking any responsibility in es-tablishing the Escort, unless the Chamber of tablishing the Escort, unless the Chamber of Commerce would guarantee the full amount required, viz., \$43,000. This could not be acceded to by the latter, and hence the whole arrangemente have fallen to the ground. A "table of Fees and Commission to be charged upon all classes of Merchandise as well as for disbursements on shipping, etc.," was submitted to the meeting and directed to be laid upon the table for thirty days, for the purpose of allowing time for the members to examine it before passing it into a by-law. THE ROBBERY OF TOOLS .- James McCad-

den, alias "Happy Jack," was brought up on remand before the Police Magistrate yester day morning, charged with stealing some tools belonging to George Church. One additional witness was called, named Edward Phelps, who deposed to having bought of the prisoner a plane, which being produced rhelps, who deposed to having bount of the prisoner a plane, which being produced in court, was identified by the complainant as his property. AN OLD FACE .- Edward Collis, the excaptain of Irish Militia, who had such an excellent paper character to show on his arrival in the colony, appeared again in the dock of the Police Court yesterday morning. Police constable Thompson stated that on Sunday night he found the prisoner lying in an entry on Cormorant street dead drunk. The accused, whose face exhibited various scratches and bruises, addressed the magistrate with much suavity, represented that the day previous had been his birthday, and that in celebrating the occasion with a few friends he indulged rather too freely; he concluded by pressing upon the attention of the bench the fact of the auspicious event recurring but once a year. Mr. Pemberton inflicted the usual fine of 5s. or six hours in the lock-up. constable Thompson stated that on Sunday

CITY COUNCIL Monday, April 6, 1863.

A meeting of this body took place yester-day, at 7:45 p. M. Present—His Worship the Mayor and a full Board. Upon the minutes of the last meeting be-ing read, Mr. Copland pointed out the omis-sion of the items in the report of the Finance Committee passed at the last meeting, said report being only cursorily referred to Said report being only cursorily referred to.

By direction of the Mayor, the Clerk entered the same in due form, in presence of

THE MUNICIPAL LOAN.

fore the meeting :

COLONIAL SECRETARY'S OFFICE.)

To His Worship the Mayor.

Sir: I have had the honor to receive and lay before the Governor your communication of yesterday's date, forwarding a copy of a letter from the Bank of British North Amelian rica, and inquiring when the Government will furnish the guarantee alluded to by the Manager, in respect to the repayment of the loan of £5,000.

In reply thereto, I am to acquaint you tha In reply thereto, I am to acquaint you that a copy of the Victoria Incorporation Debentures Act, 1863, was forwarded to the Manager of the Bank of British North America on the 6th ult., and that Act is the guaranree settled by the Legislature to be given in respect of the Municipal Loan.

That Act does not authorise the Governor

That Act does not authorise the Governor to give any express or particular guarantee, nor to do any act or thing ia respect of the Loan, and therefore the issue of such a document as that referred to by the manager of the Back would not only be informal but valueless under the Act.

His Excellency, however, cannot refrain from expressing his regret at the misapprenension which has been originated, and which would appear still to be maintained regarding

hension which has been originated, and which would appear still to be maintained regarding the security of the Loan, and the consequent delay which has ensued in the application of the funds raised with the sanction of the Legislature for carrying on important public improvements, for although the Act does not provide for the Municipal Debentures issued under it bearing upon them any express guarantee or certificate of the Colonial Government; yet, in His Excellency's opinion, there can be no doubt in view of the circumstances under which that Act was passed, stances under which that Act was passed stances under which that Act was passed, that it embodies a satisfactory and sufficient obligation on the part of the local Legislature to eventually make provision for the discharge of the Loan, if the Municipal revenue raised and applied according to the intent and meaning of the Incorporation Act should fail in the redemption of the Municipal Debentures.

I have, &c.,

I have, &c., W. A. G. Young. On the motion of Mr. Stronach, it was re solved that a copy of the above be forthwith transmitted to the Manager of the Bank. JOHNSON STREET.

A communication from the City Surveyor recommending that connection between the end of the work completed by Messrs, Jeffry, Bray, & Reynolds on Johnson street and the portion of Douglas street already graded and macadamized be completed, was read, the estimated cost being \$300. The mags showing the encroachments upon Beac on Hill Park were likewise enclosed. Plated on tile.

COST OF CITY SURVEYS. Another letter from the City Surveyor was also read. It mentioned the expenses incurred in the performance of his duties, which are as follows: Rent of office for half year......\$50 00
Drawing paper and general Stationery 43 75

Chainman's wages..... Assistant Surveyor 350 00 This demand was referred to the Finance

Committee for report. THE PETITION OF A CHARITABLE SOCIETY.

The next communication was a petition from the St. David's Benevolent Society.

from the St. David's Benevolent Society, signed by 42 members, representing the presenting the present of the institution. Not tweeter hold their regular monthly and other meetings in the City Chambers.

Mr. Stronach thought it a rather strange petition. The Council might permit a single meeting to be held, but it would never do to allow it as a permanent thing. Every society in town might as well ask the same favor. He moved that the petition be laid on the table.

Mr. Lewis moved that the prayer of the petition be granted. This society was designed to assist and relieve poor Welshmen in this city, and therefore had a just claim. They must remember that the Chambers be longed to the city, not to the Council. Every citizen had a right to the use of them. Mr. Hicks did not coincide with this view. The Council had been to much expense in

furnishing them.
Mr. Copland condemned the principle as-serted by Mr. Lewis, that all had a right to serted by Mr. Lewis, hat all had a right to use the rooms. Every society in town night claim such a right. Much extra trouble would be given to the messenger, and the fur-niture, etc., would not last so long. The Mayor considered that the Council

vere bound to accommodate their fellow citi zens, if no injury would result.

On the motion of Mr. Stronach, the petition was then placed on file.

EXEMPTION FROM TAXES. netition from Messrs Dougal

On the motion of Mr. Copland, the petiion was placed on file.

JOHNSON STREET SIDEWALK. A communication received from the con ractors for the construction of the sidewalk n the north side of Johnson street between on the north side of Johnson street, between Douglas and Quadra streets, representing that they had tendered under the impression that the same was only to be made eight feel wide, and asking for an allowance in conse-

nence, was then read. quence, was then read.

From the expression of several Councillors, it seemed that the potitioners were fully aware that they had to construct it ten feet wide at the time they signed the contract.

It was finally placed on file.

STREET IMPROVEMENTS.
In accordance with the notice duly given, the following resolution of Mr. Hicks came

up:
Resolved, That tenders for grading and
macadanizing the following streets in the
manner following be advertised for forthwith.

Wharf street, from Bastion to its junction Wharf street, from Baston to its junction with Fort street, from Wharf to Government.

Broad street, from Fort to Pandora.

Douglas street, from Humbold to Johnson Cormorant street, from Wharf to Govern

Langley street, from Yates to Fort. Broughton street, from Government louglas, The said streets to be graded two-thirds of

their width, and macadamized one-third of their width, along the center line.

Mr. Searby thought it would be bad policy to do all of the above at once, and moved as an amendment that each street be considered

separately.

The vote being taken proved a tie, when

on street be stricken out.

On the motion of Mr. Scarby it was deci-

ded that Government street, from Johnson to Fisguard, be included in the resolution. The resolution was then carried and the clerk directed to advertise for tenders.

MISCELLANEOUS. Mr. Stronach moved that the Finance Committee be authorised to act as Auditing Committee of all accounts; all accounts of the Corporation to be audited monthly.

Carried unanimously.

The Finance Committee reported in faveof the payment of the following sums, incur-red by submitting the Trades Licenses By-law to the electoral vote:

Mr. Stronach moved as an amendment that the items in respect to the meeting be struct out, as he considered the expenses ought to defrayed by the councillors themselves

be defrayed by the councillors themselves, inasmuch as the meeting had not been asked for by the people.

Capt. Reid said that if the Council did public business and had to find their own tools, it would be too bad. He did'nt say he, had bought anyone's votes, but he had lots of beer and wine, and he thought that was enough

or him upon the occasion.

The amendment was put, when only Messrs.
Stronach and Searby voted for it. It was a accordingly lost, and the report of the Finance Committee confirmed as read. The Council then adjourned until Monday vening next.

BRITISH STEAMERS BETWEEN VICTORIA AND NEW YORK.

Confederate privateers in the Gulf of Mex co promise to be of great advantage to this Colony and San Francisco. Their depredations on Federal vessels have alarmed the shippers of treasure from California and all passenger-going people. Federal ships of war being unable to catch the Alabama or her consorts, the danger to Federal commerce has been on the increase. As a consequence, shippers of treasure from California and all has been on the increase. As a consequence we observe that a very righteous decision as been arrived at by the Treasury Department at Washington. Every impartial person has long been persuaded that the Federal Treasury Department was perpetrating an utrage on the shipping interests of other nationalities, in holding that foreign bottoms could not carry goods from New York, via the Isthmus, to San Francisco. The pressure of the times-the presence of Confederate priforced the Federal Treasury to act honestly by foreign ship-owners -- not deny to them the exercise of those rights guaranteed by the navigation laws of the United States, and treaties with foreign nations.

A New York correspondent of a San Francisco paper thus speaks of the decision of Secretary Chase :-

Secretary Chase has just decided that no iscrimination shall be made in future agains foreign bottoms which shall transport against foreign bottoms which shall transport goods and passengers from New York to San Francisco, by the way of any foreign port, but that they shall be subject to the same immunities and privileges given to American goods and passengers in American bottoms, as furnished by American Consuls in such foreign ports. This will have the effect, of foreign ports. This will have the effect, of course, to allow British steamers to carry freight and passengers between New York and San Francisco, via Panama, under the seal and clearance of United States authority, without any discrimination in favor of Ame ican bottoms, and will directly invite competition from foreign ship owners. This opinion, now first rendered, has long been held by the Treasury Department, but has been withheld, and an opposite practice winked at for the sake of encouraging American commerce. But the just complaints of the outraged Cali ornia passengers by the Vanderbilt line, and stant refusal of that "Old man of the sea," to relax one iota from his grasp on the postal interest of the Government, have at last had the effect to bring the Department to a and the effect to bring the Department to a decision which will bear so heavily upon Vanderbilt that Californians may reusonably expect, that a new state of things will ere long be inaugurated on the much abused California route across the Isthmus.

We learn from private sources that the Hon. Donald Fraser is exerting himself at Sar Francisco and iu England to put on a British line of steamers between Panama, San Fran eisco and Victoria. We trust his labor will be successful; for the present is a very oppor tune period to accomplish so desirable a pro ject, and whatever can be done by our citi zens to further the object ought to be done at once. The great obstacle in the way o British steamers plying between Merakers co, is now swept away. If they had not been prohibited from earrying New York shipment from the Isthmus to San Francisco on the ground that it was a coasting trade, British steamers would have been placed on the North Pacific coast route long ago. Now that the prohibition is removed, no obstacle is in the way; and we may anticipate the speedy establishment of a British line of steamers connecting Victoria with Panama

and New York. VICTORIA THEATER - We understand the preparations are in progress by the celebrated Orrin family and Md'lle Lameroux, to bring out some novel entertainments at the theatre before their departure. They will appear in Pantonimes, Ballets, &c., of the most pleas-ing description and entirely new in Victoria. In addition to the other performances, the Orrin's will introduce some new and wonderful feats in gymnastics.

FOR CARIBOO .- The steamer Enterprise sailed about midnight for Fraser River with the largest number of passengers she has yet taken up at a trip. Over 250 souls were on about 30 tons of merchandise, 9 head of cattle and 23 pack-animals.

Triumph of the Canadian Ministry over

the Opposition. A gentleman in town has received a letter from Canada, dated 26th February, six days later than newspaper dates, which states tha Mr. McDougall's motion of last year was moved by the Opposition as an amendment to the Address at the opening of the Session, but they were defeated by the Government by a large majority. The following is the substance of the amendment :

"That we must express our surprise that his Excellency has not been advised to make illusion to the recent census of this Province, illusion to the recent census of this Province, oy which the important fact is established that the population of Upper Canada exceeded that of Lower Canada by 285,427 souls, that we therefore deeply regret His Excellency has not been advised to recommend for our adop-

not been advised to recommend for our adoption some measure for securing to this large population in Upper Canada their rightful share of the Parliamentary representatives and their just influence in the Government." The majority of the present ministry voted for this motion when brought forward by one of their own members, Mr. McDougall, last year when they were in Opposition, but matters are now changed, and office, it seems, has wrought a change in the views of the ministry on the question.
